Respectively Submitted,
Nicole Tropf

Advisory Board Jade's Dog Park Points of Concern

Jade's Dog Park is an active amenity in Butler County area within Alameda Park. Jade's Dog Park has been open year-round for 3 years, since May 2019. In order to keep up with our promise to operate year-round, we have necessary maintenance that warrants temporary closing on occasion for designated areas within Alameda Park.

For BCPR to keep costs low and affordable, we have been very conscientious of our planning for routine checks and maintenance. We have to consider the usage of the acreages in the park and the man-hours we have available to do what needs to be done while still adding extra projects, jobs and assignments that arise unexpectedly.

Background Summary: Although the dog park was open year-round, with the exception of maintenance, disease and events, the road gate had remained closed since December 1st for vehicle access. While only a few requests were submitted since the dog park opened in 2019, asking that the road gate be left open to the dog park, there was a recent request by a concerned citizen to the Park Director, Board of Commissioners and County Solicitor to open the road gate. In doing so, they admitted that they fell walking back from the dog park. While they claimed they were uninjured, in this admittance, the County Solicitor and the insurance company decided it was best to close the dog park during the winter months.

Jade's Dog Park Timeline:

Dec 1, 2022: Per policy we closed the road gates for the winter months November - March

Dec 6, 2022: Email by concerned citizen questions the access for mobility and legality of ADA for the Dog Park

Dec 6-Dec 16, 2022: Under review by the Solicitor and Board of Commissioners

Dec 16, 2022: Email by concerned citizen that they slipped going down a hill on a walkway from the dog park and claimed were not injured.

Dec 16, 2022-Jan 5, 2023: Under review by the solicitor and insurance.

January 5, 2023: Solicitor emailed concerned citizen informing of closure of park due to safety risks.

January 6, 2023: Lance received email copy and was informed to close the dog park. Butler County Parks provided news release, Facebook on two separate pages, website update.

January 6, 2023: Jade's Dog Park was officially closed per Solicitor until March 30, 2023.

Park Department Internal Investigation and Findings:

Maintenance Survey:

Butler County Parks and Recreation's staff did a survey of Jade's Dog Park attendance after the concerned citizen's initial email on December 6, 2022. For a 2-week period, checking sporadically twice-a-day, we tallied a total of 20 visits who were in attendance. The weather temperature ranged from 19-50 degrees during this time frame.

Since closure of Jade's Dog Park on January 6, 2023, the Park Department has received 10 phone calls, and 2 emails (besides the aforementioned concerned citizen). The temperament of most phone calls have been polite and understanding of the current policy. Most indicated they would find alternative way to provide their dogs with exercise during the winter months.

Plausible Solutions to be suggested during Advisory Board Meeting:

OPTION 1: Maintain current policy: road gates and Dog Park will remain closed through December 1-March 30. Dog Park would remain closed in matching the winter dates.

OPTION 2: Open all road gates and open Jade's dog park year-round beginning November 2023. Which would require daily opening and closures based on the weather, which would create challenges for after hours and weekends with limited staff. Weather changes throughout the day would possibly create opening and closing challenges. If they road gates are open 24/7 it will require additional time, equipment for road and sidewalk maintenance.

(Contingent on budgetary expenses)

Road maintenance:

- Currently the County bridge crew maintains our roads and parking lots at all off-site locations (meaning locations other than Government Center, Courthouse, Prison and Elections/Magistrate office in the City of Butler). Off-site includes 9-1-1, Aging, and the Park Road.
- The Bridge Crew is called out during regular hours and during evenings and weekends (Overtime) if Butler Township Road Crew is called out via 9-1-1. The Bridge Crew must do Alameda Road first since we own that road from New Castle Road into the park and it provides access to several apartment complexes along with Alameda Plaza Shopping Center. Once they complete that road, they move next to 9-1-1 and Sunny view Complex as that would be priority. The Bridge Crew costs for maintenance are covered by Liquid Fuels Revenue. (Gas tax). Liquid Fuels funds may only be used on public access roads and not on parking lots, thus parking lot plowing would need to be done by park maintenance staff and would come from the park budget.
- The Bridge Crew would need to return to the park after doing 9-1-1 and Aging. It is estimated that additional park road maintenance would add two hours of time.
Estimated annual overtime costs for evenings and weekends would be approximately \$12,000 (which is double time according to Collective Bargaining Agreements.) This would be for two staff, two hours, for an average of 20 OT call outs per year.
- This does not include the number of call outs during regular hours. Adding two hours to the maintenance time on regular hours has the potential to create additional overtime as the weather is unpredictable. The \$12,000 cost is the minimum for staff time on road maintenance. There is NO option to contract for this service as our employees are subject to collective bargaining.

Parking Lots/Sidewalks/Equipment:

- If the road gates are open, it would be expected that the sidewalks would also need to be maintained. The park has two full-time maintenance staff who use the winter months to do routine maintenance on the bathhouse and equipment in particular. It is estimated that the park would require a 500-hour employee for the purpose of maintaining parking lots and sidewalks as needed. The cost would be approximately \$7500.
- Equipment purchase for parking lot maintenance would involve a truck, plow, and salt hopper at estimated total cost of \$57,000.
- The cost of salt would be approximately \$3,000 per year and gravel replacement for the dog park parking lot would be approximately \$2,800 per year.

OPTION 3: Spend \$20,000-\$30,000 to create a secondary park in lower-Alameda. (Jade and road gate would remain closed). Funds would need to be allocated for 2024 budget.

Provide a second "winter" dog park option (Jade's Park II) that provides simply a fenced in area at the lower end of the park that is accessible by road in the winter closure months. This area would be open

only during Jade's Dog Park closures. The area is located in the field opposite the carousel shelter. The parking lot is gravel with one paved accessible pad in front of the Carousel Shelter. There will be a second paved accessible pad added this spring/summer when the restrooms are upgraded. It will also mean an accessible restroom will be available in that location.

The field is currently used for soccer camp and would mean that the Park soccer program would have to find an alternate location for soccer camp, which the program manager assures is possible.

The cost of fencing in that area (one large area only. There would be no separation for large/small dogs) is estimated to be \$23,000.

Dog Parks in Butler County:

There is only (2) Dog Parks in Butler County: Rotary Dog Park in Cranberry Township and Jade's Dog Park in Butler County.

- Both Butler County and Cranberry Township have closure from November- March.
- Neither provide winter maintenance beyond the road gates.
- Cranberry Township plans on implementing a new policy in 2023 of closing the Dog Parks when the weather limits the use for fields. This policy will follow the field policy. Example: if the field is too wet or grass may be destroyed or unsafe conditions arise, the facilities will be closed.
- Butler County Parks and Recreation has intentions of also following a field use policy and daily monitoring.
